

**Attachment B - California For all CERT and LISTOS Capacity Grant Community Member Preparedness Engagement Requirements**

One of the goals of the California for All CERT and LISTOS Program and County grants is to utilize CERT and LISTOS members to engage and prepare Californians for Emergency and Disaster situations.

Preparedness engagements can vary depending on the grant, organization, and audience. Programs and counties are encouraged to list different engagement activities into their RFA applications for approval. A running list of approved engagements will also be posted on the CaliforniaVolunteers website at <https://californiavolunteers.ca.gov>.

Examples of preparedness engagements include:

- Providing California For All Preparedness training and or Activities (this will be available on the <https://californiavolunteers.ca.gov> website Fall, 2019)
- Providing classroom-based training such as CERT, You Are the Help Until Help Arrives, Stop the Bleed, etc.
- Providing LISTOS training to community members
- Holding a neighborhood event where participants receive preparedness information and/or training
- Providing a preparedness presentation or training to a community group, faith group, or school
- Holding an exercise or drill for CERT/LISTOS members and/or community members

Preparedness Engagements are to be tracked by performing the following:

- Activities will be tracked using a free online and mobile platform that will be provided by California Volunteers, including the number of people engaged in these activities (training webinars will be available after the grants are awarded)
- Community members engaged will need to be tracked on a California For All Preparedness Engagement Activity Sign-in Form that will be provided by California Volunteers
